Kevin Nisay

WHO AM I?

Hi, you can call me Kev. I work as a creative UI/UX Designer & a front-end developer for a digital agency in Jeddah, Saudi Arabia. My main responsibility is to design and develop a creative & modern website.
I'm currently building my own NFT project right now 👉 https://ecodroids.com

EXPERIENCE

Brund.run, Saudi Arabia — *Senior Front-end Web Developer(Current)*

Sept 2017 - Current

- Startup creative agency in Jeddah, KSA. I worked as a Front-end web developer, thus requiring me to meet with the clients for project briefings, and pit stops. This position helps me improve my confidence in dealing with, plan, tracking, and collaborating with clients. It was mandatory for me to use WordPress as our primary CMS tool because it helps us deliver jobs fast with quality assurance.
- I'm also responsible for designing UI/UX and then turning it into an interactive and responsive website.

Nove Creatives, Australia — *Front-end Web Developer(Remotely)*

Jan 2020 - Sept (2020)

- A Digital Agency based in Australia, I worked here as a senior web designer and developer, My main tasks are to provide a fresh and modern look website to our clients who are mainly based in Australia, From designing the UI/UX and converting it into HTML5 or WordPress depends on the client needs. Our main targets are Small to medium businesses.

Incomestore INC., USA — *Front-end Web Developer(Remotely)*

July 2019 - Dec 2019

- A Digital Agency based in the USA aims to help small to medium enterprise websites generate more leads, sales, and revenue. My main responsibility is to create an interactive infographic website page. From Adobe XD then code it Using HTML, CSS, and Javascript.

Block Studio, Saudi Arabia— *Senior Front-end Web Developer*

NOV 2017 - JUN 2019

- As a Front-end Web Developer, and UI/UX designer, I'm responsible for numerous different roles such as coding, designing, managing multiple projects together, marketing, and idea creation. I'm passionate about solving problems and learning new techniques, my biggest challenge is to carefully combine design and code together to produce beautiful websites and projects.

EDUCATION

AMA University, Philippines(ONLINE) — *Bachelor's Degree in Computer Science (Currently enrolled in Online school)*

Nov 2021- Current, Philippines

STI, Philippines — *Associate's Degree in Electrical & Computer Engineering (Not Finished)*

Jun 2008 - Oct 2011, Philippines
